

Patent Claims

1. Active compound combination, comprising a compound of the formula (I)

and

- (1) a compound of the formula (II)

and

- (2) a compound of the formula (III)

2. Active compound combination according to Claim 1, characterized in that in the active compound combination the weight ratio of active compound of the formula (I) to
 - 5 - active compound of the formula (II) is from 1:0.1 to 1:10, and to
 - active compound of the formula (III) is from 1:0.1 to 1:10.
3. Method for controlling fungi, characterized in that an active compound combination as defined in Claim 1 is allowed to act on the fungi, their habitat10 or the plants, parts of plants, seeds, soils, areas, materials or spaces to be kept free from them.
4. Method according to Claim 3, characterized in that the compound (I) as set forth in Claim 1, the compound (II) as set forth in Claim 1 and the compound15 (III) as set forth in Claim 1 are applied simultaneously, that is jointly or separately, or in succession.
5. Propagation material which has been treated by a method as set forth in Claim 3.
- 20 6. Fungicidal compositions, comprising an active compound combination as defined in Claim 1.
7. Use of the active compound combination or the compositions as defined in25 Claims 1, 2 and 6 for controlling fungi.
8. Process for preparing fungicidal compositions, characterized in that an active compound combination as claimed in Claim 1 is mixed with extenders and/or surfactants.
